Although the above mentioned is the current level turnover/income and is closely related to the economic indicators, it may be more or less in future. Consequently this confirmation does not serve as a guarantee that the income reflected will continue at the same level.

We have independently reviewed the financial statements of the EME for the period ended, on which we expressed an unmodified limited assurance conclusion on 12-06-2018. According to those audited financial statements turnover/income is less than or equal to R10.0 million. Based on the independently reviewed financial statements, in which independent reviewer's work is substantially less than in an audit and certain additional procedures as we considered necessary, we determined the level of Black Ownership/Black Women Ownership as set out in this certificate to be a level 1.

We do not accept or assume responsibility for anyone other than KAMOGELO INDUSTRIAL AND MINNING SUPPLY CC, for our work, for this report, or for the conclusion we have made.
